

Metered Water Softener

"We've installed thousands of these systems locally. It's the same one we rent and our rentals include service, parts and replacement. That's how much we believe in them."

- Ray Frosti

Custom-Built Quality

Each component is carefully inspected and assembled at our Haddam, CT shop to insure optimum performance and reliability.

The FWC Guarantee

If not satisfied, let us know within the first 90 days. If we cannot correct the problem, we will remove the system and refund your money.

6-Cycle Metered Control Valve

- Reliable, non-electronic, direct-drive meter
- Cycles based on water usage - to save water, "salt" and money
- Modular construction of rugged "Noryl" plastic
- Easy to set "Time of Day"
- Motor driven to handle difficult water
- Reliable piston/spacer/seal design
- Double Backwash Feature
- Independent levered bypass valve
- 115-volt outlet required
- Uses Potassium or Sodium Chloride

Fiberglass Media Tank

- Durable poly-wound construction
- Semi-translucent - for "flashlight" inspection

Separate Brine Tank

- Rugged, high density plastic construction
- Brine platform and over-flow safety float
- 14x14x34" square or 18x33" round designs

Medias & Internal Flow System

- High capacity 8% cross-link cation resin
- Quartz under-bed, high-flow distributor & upper diffuser provide better water flow paths for optimum treatment, cleaner media and lower backwash requirements.

Limited Warranty

Our metered softeners are warranted against defects in materials and workmanship (not normal wear) from the date and site of original installation and expressly limited to the repair or replacement of the defective part(s) for a period of 5 years.

Please call for pricing.

- Available to rent or purchase.
- Rent includes service, parts, and replacement.
