

Automatic Filter System

Sizes

- 10" x 47" - 1.0 ft³
- 12" x 48" - 2.0 ft³
- 13" x 54" - 3.0 ft³

"We've installed thousands of these systems locally. It's the same one we rent and our rentals include service, parts and replacement. That's how much we believe in them."

- Ray Frosti

Custom-Built Quality

Each component is carefully inspected and assembled at our Haddam, CT shop to insure optimum performance and reliability.

4- Cycle Control Valve

- Adjustable cycles
- Modular construction of rugged "Noryl" plastic
- Easy to set "Time of Day"
- Separate drive and timer motors - to handle the toughest water conditions
- Reliable Piston/Spacer/Seal Design
- Independent levered bypass valve
- 115-volt outlet required

Fiberglass Media Tank

- Durable poly-wound construction
- Semi-translucent - for "flashlight" inspection

Available Medias

- Calcite - for pH adjustment
- Carbon - for color/chlorine
- Catalytic Carbon - for hydrogen sulfide/iron
- Birm - for iron
- Greensand - for hydrogen sulfide/iron

Internal Flow Distribution

Quartz under-bedding with hi-flow basket distributor provides better treatment, cleaner media and lower backwash requirements.

Limited Warranty

Our automatic filters are warranted against defects in materials and workmanship (not normal wear) from the date and site of original installation and expressly limited to the repair or replacement of the defective part(s) for a period of 5 years.

The FWC Guarantee

If not satisfied, let us know within the first 90 days. If we cannot correct the problem, we will remove the system and refund your money.
